

To whom it may concern

We have recently had our house painted internally by David and his team from D & K Painters. The job involved filling, patching, sanding, undercoating and painting internal walls, ceilings, doors and woodwork of our house. The house was built in the 1950's and hadn't been painted for about 14 years, so required quite a bit of detailed preparation.

I found his quote very competitive, his knowledge extensive about types of paints and what would be required on all surfaces. He was able to do the job within the time frame we were after, arrived on time and completed the job on schedule. He and his team were very amenable people who I felt completely comfortable having in the house. The quality of the work was excellent and I would have no hesitation in recommending him for any painting job.

Regards
